

# Unearthing Exceptional Talent.

Managed workforce solutions for  
mining, civil and construction.

# Unite - where talent and opportunity meet.

A leading labour hire and recruitment company specialising in the mining, civil and construction industries, Unite Resourcing unearth and deliver a managed mobile workforce to help your business thrive.

With a vast and engaged network of blue and white collar candidates, we manage the entire resourcing pipeline—from screening and interviewing, training and inductions, medicals and tickets, to payroll and ongoing administrative support—taking the hassle out of workforce management and enabling you to get on with what you do best: delivering critical projects.

Ultimately what defines Unite Resourcing is our approach to people. Founded with a focus on the 'long game', relationship-based recruitment, we invest in our people—taking the time to assess their skills, provide ongoing development opportunities, and matching them to projects that offer a mutually beneficial experience for both parties.

With offices on the east and west coasts of Australia, we guarantee a local footprint, rapid placement capability and personalised support to put the right hands on deck where you need them most.

## We dig deep to find the perfect candidate

With a specialist team of recruiters who've held senior roles within the mining, construction and engineering sectors, we pride ourselves on our comprehensive industry knowledge and genuine 'above and beyond' care factor that leads to the best outcomes for our clients.

We maintain your high standards and reputation throughout our attraction and retention programs, working as an extension of your business and taking personal responsibility for delivery of operational and safety KPIs.

# The Unite Difference - a superior approach for sustained growth.

Vast database of highly skilled blue and white collar candidates

Flexible solutions including managed, permanent and specialist recruitment

Rapidly scale resources from an entire project workforce to fulfilling a specialist technical role, we help balance project costs

We are future focused, building relationships for the long-term

Safety leadership underpins all our actions and is embedded in our culture

Independently owned and headquartered in Western Australia

Attractive incentives including weekly payroll, personalised HR, and ongoing training

We're on hand 24/7 to respond to queries and emergencies

## Safety-first approach unlocks greater efficiency

Archetypal of our 'people-first' ethos, at Unite Resourcing, health, safety, and environment (HSE) policies are deeply embedded in our business culture and at the forefront of our approach to recruitment. With dedicated HSE professionals on staff comprising decades of expertise within the Construction, Mining and Oil & Gas sectors, we foster a culture where safety is paramount—providing comprehensive and ongoing training to ensure all candidates are compliant with safety legislation and exceed clients' expectations before they commence work. At a minimum, our HSE training process includes:

- | Comprehensive medicals to assess fitness and minimise impairment hazards
- | Industry-specific HSE training during onboarding, in accordance with relevant safety legislation
- | Regular site-inspections from Unite HSE staff to monitor compliance

## Strong partnerships, unmatched reputation

Working with leading blue-chip organisations across the mining, construction and engineering industries, our specialist consultants are deeply networked within their fields of speciality—keeping their fingers on the pulse of their vertical markets to deliver top-tier, quality candidates that address strategic priorities.
